

RST® PLUGGABLE CONNECTORS

SMART. EFFICIENT. **WATERPROOF.**

RST® circular connectors are designed specifically to provide efficient, pluggable, and safe connections in areas requiring a high degree of protection from water and moisture.

Discover smart connection solutions with pluggable systems that save installation time & effort. Ensure flexibility for future system modifications and extensions with distribution boxes & splitters. WIELAND RST® MINI & CLASSIC connectors have added safety & reliability with a standard secure locking mechanism, more choices with pre-assembled components, and error-free connections with a smart coding system.

	RST® MINI	RST® CLASSIC	Common Straight Blade Connectors
Components	Cable Connectors Panel Connectors Cable Assemblies Splitters	Cable Connectors Panel Connectors Cable Assemblies Splitters	Cable Connectors (must be disassembled to be wired)
Number of poles	2 to 5 poles	2 to 7 poles	2 to 3 poles 2 to 4 wires
Ratings	up to 600 V, 16 A up to Type 4X/ 6P, IP69	up to 600 V, 20 A Type 4X/ 6P, IP69	up to 250 V, 20 A up to NEMA 5-20R/P, IP 20
Codings	up to 6 color and mechanically coded inserts	up to 6 color and mechanically coded inserts	Not Available Colors inter-mate
Approvals			 (*variable)
Locking & Safety	Self-locking - Twist (standard)	Self-locking - Pin (standard)	Self-lock (premium only)
